

Sustainable Travel Policy

CONTEXT

The IPCCs 2018 report on Global Warming of 1.5°C makes clear that:

“limiting global warming to 1.5°C with no or limited overshoot would require rapid and far-reaching transitions in energy, land, urban and infrastructure (including transport and buildings), and industrial systems. These systems transitions are unprecedented in terms of scale...and imply deep emissions reductions in all sectors”

We are running out of time to make this happen.

“Avoiding overshoot and reliance on future large-scale deployment of carbon dioxide removal (CDR) can only be achieved if global CO2 emissions start to decline well before 2030”.

2030. That’s less than 8 years from now & the only solution is action.

ACTION

The policies outlined below outline specific actions we’re taking a business with regards sustainable travel & will be added to & developed as our work continues.

Policy	Details & Inclusions / Exclusions:
Transport	<ul style="list-style-type: none"> - Discount of 10% on accommodation or experiences for guests who reach us using transport option(s) fuelled by renewable means i.e. foot, electric vehicle, (e)bicycle or sailing boat. - Travel specifically for education or training deemed vital so currently exempt.
Domestic Travel.	<ul style="list-style-type: none"> - To be celebrated & showcased wherever possible. - Continue online campaign via blog & social media channels to celebrate & showcase benefits of domestic travel. Support & connect with initiatives, organisations & networks that further increase reach of this message & build market share.
Travel within Business.	<ul style="list-style-type: none"> - Reduce in person travel & use virtual options wherever possible.

	<ul style="list-style-type: none">- All business vehicles to be run by renewable means by end of 2022 (Current fleet includes 1x electric vehicle & 1 x 4x4 to be switched from diesel to recycled fat).
--	--

Further ideas to be reviewed:

- Tackling non-tourism based travel i.e. Garden contractors etc
- Carbon calculating & off-setting of any travel within or on behalf of business by non-renewable means.
